## FOR DEEPER WATERWAYS CONVENTION ORGANIZES

OVER THOUSAND  
IN ATTENDANCE

Will Urge Digging of a Ship  
Canal From Lake Mich-  
igan To Gulf.

TO IMPROVE THE STREAMS.

All Tributaries to Mississippi River  
to Come in for Attention of New  
Formed Association.

CANAL IS ALREADY STARTED.

St. Louis, Mo., Nov. 16.—By the election of E. S. Conway, of Chicago, permanent chairman, and W. F. Saunders, of St. Louis, as secretary, the step toward permanent organization of the Mississippi River Waterway association was taken at the first day's session of the waterway's convention.

More than a thousand delegates representing 22 states bordering on the Mississippi river and its tributaries were present.

Addresses were made by former Governor David R. Francis, of Missouri; Congressman Henry T. Rainey, of Illinois; and Thomas C. Wilkinson, president of the Upper Mississippi River Improvement association. Congressman Rainey said this country had been divided into spheres of influence by seven great railroad groups which do not infringe upon each other's territory.

"We cannot regulate freight rates by legislation," he continued. "The only way of improving the railroad rates is by opening out the great national waterways to commerce by making the channels navigable to boats capable of carrying thousands of tons of cargo."

A committee was appointed to prepare an address to the public embodying the best means of securing a deep waterway from Lake Michigan to the Gulf of Mexico. This address will be submitted tomorrow.

The chief object of the convention is the restoration of river transportation by deepening the channels, thus bringing boat transportation into competition with the railroads. The permanent body will work through the river improvement associations of the upper Mississippi, the Ohio, the Missouri, and the lower Mississippi, as well as various commercial bodies, to secure appropriations from congress for the improvement of the internal waterways of the country.

According to the reports of the officials of the Business Men's league under whose auspices the convention is being held, the work of constructing a waterway from the lakes to the gulf has already been half accomplished without cost to the government, by the completion of the Chicago sanitary and ship canal. Congress will be urged to complete this work by making a fourteen foot channel connecting the canal through the Illinois river, with the Mississippi.

In preparation for second convention at Washington, D. C., December 6 and 7 of the National Rivers and Harbors congress the executive committee of that body is circulating literature setting forth some interesting facts designed to develop widespread interest in the movement for a comprehensive improvement of the waterways of the country. Excluding the seaboard, according to the statements of the committee, the United States has 43,799 miles of navigable waterways, of which 2,399 miles are the Great Lakes, 16,500 miles the Mississippi river and its tributaries, and 25,000 miles other rivers. Since 1820 the United States has expended \$470,000,000 upon its waterways, during the past twenty years an average of about \$14,000,000 annually, and during the past ten years an average of about \$19,250,000. Holland, France and Belgium, which have an aggregate of 7,330 miles of waterways, or about one-sixth as much as the United States, excluding the seaboard, have spent more than \$2,700,000,000 on such improvements, and the policy of foreign countries in this respect is contrast to that of the United States.

## TO PROTECT HORSES FROM WINTER'S COLD

DIAMOND IN CHICKEN'S GIZZARD

Finder Is Sued by Owner—Loses  
Gem and Pays \$150 Costs.

Dallas, Tex., Nov. 16.—From the gizzard of a spring Texas chicken John Garcia, a farmer of Sterling, extracted a diamond valued at \$400, and which was lost a year ago by Charles P. Kendall, who lives twenty miles south of here. Kendall at the time was on a visit near Sterling, 300 miles west of Dallas, and lost the sparkler within a mile of the Garcia place. Recently he learned of the finding of the gem. A message to Garcia requesting the return of the stone brought this reply: "Plenty of diamonds on the market as well as innumerable chickens. Advise that you buy either if you are in real need of a sparkler." Kendall sent another message offering Garcia the pick of his herd of cows if he would return the diamond. But Garcia merely repeated his advice that he would return the diamond. The latter then filed suit at Sterling and today returned to Dallas wearing the diamond. Garcia paid the costs of suit, amounting to \$150.

Many Snowball Fights.

Yesterday Captain Frank Harlan, of the police force, was greatly annoyed by calls for policemen to disperse snowball armies in various parts of the city. Several express drivers reported with bruised heads, and in some portions of the city the nuisance was carried to such a degree that pedestrians and vehicles went squares out of their way to avoid being a mark for the youthful warriors.

## Bird Dog Thieves Are Troubling Many Possessors of Fine Animals

"Watch out for bird dog thieves." This is the word passed to every lover of sport, and it will be well that the instructions are followed. Of late many bird dogs have been "missed." Some turn up again, but the majority do not. Among those who have "missed" bird dogs is Mr. Henry Rudy, who reported his loss to the police this morning.

Bird dogs, those of good breed, are "marks" for the crooks, and they

## Humane Officer Sanders Will Enforce Rules On Drivers of Hacks In The City of Paducah.

MUST BLANKET THEM

If the ideas of Humane Officer Tom Sanders are carried out, this winter will see more protection for the poor hack and draft horses which are made to work "overtime" in the coldest of weather. It may eventually lead to the erection of a general stable for the protection of horses which are worked at all hours of the day and night.

"I am going to see that the poor hack horses are given more protection from the biting cold this winter," Humane Officer Sanders declared this morning. "I will issue orders that horses, hack horses especially, will have to be blanketed. I consider it cruel, to say the least, to drive these poor horses through all sorts of weather with no protection. Blankets are cheap, and I intend that the proper protection be given the dumb brutes."

"Another matter which I am considering, is the standing of hack horses in streets. Hack drivers stand them all along the street waiting for trade. They nearly freeze. A stable or quarters of some kind convenient to a call can easily be had, and prosecutions will follow in cases of failure to properly follow my directions."

## SAILORS WIN

GET EAR OF SULTAN, WHO  
ORDERS THEM PAID.

Turkish Ruler Files in Passion and  
Threatens His Ministers for  
Not Doing It.

Constantinople, Nov. 16.—Unpaid sailors of the Turkish navy created a disturbance in front of the palace today which almost resulted in a riot. The seamen succeeded in calling the sultan's attention to their demands. When the sultan learned the cause of the trouble he flew into a rage and threatened his ministers. He ordered instant payment of the sailors.

One Man Killed.

Reading, Pa., Nov. 16.—The "cannon ball" train on the Philadelphia railroad was wrecked last night near Linfield. One man was killed and three injured. One is missing.

There is only one kind of a newspaper circulation statement that is worth any consideration and that is the daily detailed statement. The Sun is the only Paducah paper printing such a statement.

Freights Collide.

Chicago, Nov. 16.—In a terrific crash of freight trains at the West Chicago station this morning Frank Linds, fireman, was killed. Engineer Coleman was fatally injured.

## TOM BRUCE GETS HORSE AND WIFE

Both In a Hurry And Evades  
His Pursuers

At Last Captured and Returned to  
Murray to Answer to Charge  
of Stealing.

MARSHAL HOLLAND'S CHASE

Tom Bruce, who eloped with a horse and buggy from Calloway county, has been captured, and it developed that he eloped with a young lady about the same time in almost as much haste.

Tom Bruce, of near Dresden, Tenn., gave Marshal L. W. Holland, of Murray, a chase over the western end of Kentucky and Tennessee. He is at last in the hands of the law, Marshal Holland passing through Paducah last night with his prisoner.

Bruce last August helped himself to a horse and buggy belonging to a farmer near Murray. He came towards Paducah and was located in McCracken county. The police failed to get hold of him, but directed the Tennessee police. He was again located below Fulton. Marshal Holland got a tip that he was in Lake county, Tenn., and to Lake county he went.

Bruce gave him the slip. Holland persevered and chased the fugitive through Lake, Dyer and Obion counties in Tennessee before he landed him. Bruce was caught riding in the buggy and driving the horse he is alleged to have stolen. The arrest was made just this side of Memphis yesterday.

Marshal Holland brought his prisoner back immediately. The horse and buggy he shipped to Hickman and the rig will be driven overland home to Murray.

A Little Romance.

Bruce was busy since his escape with the horse and buggy, and thought about other things besides eluding minions of the law.

Bruce married a Miss Green, of Gales, Tenn. He wooed the young woman in haste and she was easily won. He was in the picture business, selling enlarged pictures and frames. This was the business, it is understood, he intended engaging in when the idea of transportation blocked him. He was thus tempted to provide a means for getting over the country, and the horse and buggy being within easy reach, were consigned.

Bruce's young wife did not accompany him to Murray. She remained behind to seek consolation among her people.

## STATE TRAFFIC BRINGS GAIN

More Profit in Missouri Than in In-  
terstate Business by Roads.

Kansas City, Nov. 16.—Expert testimony given today at the rate hearing showed that the Missouri Pacific not only made money on shipments of freight in Missouri, but made more money from them proportionately than from interstate business.

Evidence was also given tending to show the Burlington received higher rates in proportion for hauling freight in Missouri than it received for interstate business. The Burlington, it was stated, frequently charged a rate for the moving of freight less than that named in the Missouri maximum rate law now being contested. This was explained by the assertion that if the Burlington had charged the maximum rates competition would have been driven from the field.

## SCORE CLING TO LAKE WRECK.

Steel Steamer Strathmore on Rocks  
and Crew Is Imperiled.

Sault Ste. Marie, Nov. 16.—Word was received this afternoon by J. E. Boyd, superintendent of the Canadian locks, that the Canadian steamer Strathmore was a total wreck on Michipicoten island, at the east end of Lake Superior. The crew of nineteen men are reported to be in great danger. The tug Boynton was hurried to the scene to attempt a rescue. The Strathmore is a steel steamer, built in Scotland, which was brought to the lakes this season. It has been trading between Fort William and Kingston.

## MAYOR SCHMITZ INDICTED ON CHARGE OF EXTORTION

## JUDGE HAS OFFICE IN THE CITY HALL

Will Transact Private Bus-  
iness There And Police  
And Reporters Get The  
"Skiddoo Sign" Today

CHIEF IS IN QUANDARY

"When Judge Cross gets fixed up in his office I do not know what the police will do. We have no place for calling the roll and transacting private business," Chief of Police James Collins declared. "We moved the captain's office several months ago from the front room to the rear, consolidated it with the judge's office, but we have never had the privacy we need. In the winter we can do very well in the front room, but when summer comes the roar of the streets comes through the open windows and we cannot hear over the phone. Telephones are essential to the police force and cannot be slighted. We have needed more room for some time, and I am at a loss to know what to do."

Several years ago the idea of a new city hall was raised but no action taken. The present council boards advocated the addition of another story on the hall, but this idea was abandoned. The city is growing, and with it the police business. When the city went into the second class new boards were created. They must have room, and the board of public works' room was one of the creations. The city property adjoining the hall was taken up by the en-

gineer and street department, leaving other department quarters in a cramped condition.

The question is one to interest the public as well as those who have to experience the inconveniences caused by the lack of room.

Does Paducah need a new city hall?

Chief of Police James Collins thinks it does, and he is not alone in his ideas. There are others, and if the city hall was ever crowded, the congested conditions will be felt more now that Police Judge Cross has assumed the prerogatives of the office.

Police Judge D. A. Cross will have his private law office in the city hall. This announcement he made yesterday afternoon when a brand new roller top desk was ceremoniously deposited in his office at the city hall. The old desk which has served the city so long and well, is no more to be a fixture of the judge's office.

"I can't afford to spend 20 hours at the city hall with but half an hour for my private law practice," Judge Cross declared, "and have decided to employ a stenographer, and my office will be private. You, reporters will have to stay out. You will have access to the city docket and may inquire for news, but the habit of making headquarters of the hall has got to come to an end, at least in my office."

Judge Cross made his remarks general. This applied to the police as well as others who frequent the hall.

It is not a religious use of the imagination to have an imaginary religion.

## Owen's Island Gaining Reputation As Dangerous Point In The River.

Owen's island is becoming famous as a dangerous point in the navigation of the Tennessee river in low water. Yesterday the Charles Turner with four barges of ties went aground on Owen's island. A hole was knocked in one of the barges causing it to sink. It is expected that by partially unloading the bar-

ges, the Charles Turner may be able to get off today without assistance. The Charles Turner is the fourth towboat in the last four weeks to go aground or get its tow aground at that point. The Charles Turner was the property of the late Capt. Gordon. Capt. Burton Carroll is in command now and Capt. Bud Mullen has charge of the business end.

Are Under Arrest.

Grand Rapids, Mich., Nov. 16.—Mike Ward, the Canadian lightweight pugilist, died early today from the effects of the terrible beating received last night from Henry Lewis, the eastern lightweight, who knocked Ward out in the ninth round of a ten-round fight. Lewis' seconds and the referee are under arrest.

Sherrick Gets New Trial.

Indianapolis, Nov. 16.—The supreme court today granted a new trial to David E. Sherrick, former auditor of state. Sherrick was sent to the penitentiary last April to serve from two to twenty years for embezzling state funds while auditor of state.

WEATHER: Rain tonight and probably Saturday. Warmer tonight, colder by Saturday. Highest temperature reached yesterday was 37 and the lowest today was 34.

## TO BE ARRESTED ON HIS ARRIVAL

Two Restaurant Keepers Ac-  
cuse Him of "Shaking

SOME SECRET SERVICE MEN

Said to Be Dogging Footsteps of  
Frisco's Executive in Europe for  
United States Government.

RELIEF FUND DISAPPEARED.

San Francisco, Cal., Nov. 16.—The grand jury today brought in five indictments against Eugene Schmitz and Abraham Ruef, on the charge of extorting \$10,000 from each charge ball, fixed at \$10,000.

The first alleged crime was in connection with the "Poodlefoot" restaurant and the indictment recites that Ruef and Schmitz demanded money from the proprietor, Tony Bancho. As this demand was made, it is said, on two occasions, two indictments were returned. The extortion is believed to have been practiced upon Ed Marchand, proprietor of Marchand's restaurant and is the basis of two more indictments. The demand made upon Joe Malfanti, another restaurant man, is the alleged offense on which the fifth and last indictment is founded.

On top of the indictments today comes the report that federal detectives have shadowed Mayor Schmitz throughout Europe and are on the vessel on which he is returning to the United States has created a tremendous sensation.

Mayor Schmitz is due to arrive in New York tomorrow. The Chronicle in an article printed this morning says he may be arrested when he leaves the steamship.

The Chronicle prints a remarkable story of the new development of the graft scandal, showing that President Roosevelt stimulated the work of secret service agents here because upwards of \$1,000,000 is missing from the relief funds contributed to the San Francisco fire sufferers from all parts of the country.

President Roosevelt is credited with retaining Francis J. Heney to prosecute the offenders, chief of whom is said to be Mayor Schmitz.

President Roosevelt Indignant.

The charge upon which a number of city officials and citizens will be called to defend themselves is the diversion, or theft, of funds sent to this city for the relief of the sufferers from the big calamity of April last.

So indignant was President Roosevelt on hearing of the stealing of the funds contributed by sympathetic citizens of the union to the relief of the unfortunates of San Francisco that he is said to have declared he would bring the offenders from the uttermost parts of the earth should they make their temporary escape.

During the first days following the fire many persons throughout the country forwarded relief money by

## KENTUCKY THIRD IN DISTILLERIES

Official Bulletin Is Issued By Dr. Wiley.

Government Has Real Elephant on Its Hands and Officials Are Puzzled by the Prize.

ATTACHED BY REVENUE AGENT

Washington, Nov. 16.—In the course of his campaign of education regarding the denatured alcohol law, Dr. H. W. Wiley, chief of the bureau of chemistry, agricultural department, recently issued a bulletin containing statistics of alcohol production in the several states, which gives an idea of the magnitude of the present industry in distilled spirits and the possibility of its enlargement.

This bulletin shows that Kentucky led all the union in the number of distilleries operated during the fiscal year ended June 30, 1905, except the state of Virginia and North Carolina. Kentucky's total was 253, but 238 distilleries were registered. Of these 257 were grain distilleries, one molasses and thirty fruit.

Enormous quantities of raw materials were converted by Kentucky distilleries into spirits. These included 888,279 bushels of malt, 5,373 bushels of wheat, 3,920 bushels of barley, 1,206,595 bushels of rye, 4,679,252 bushels of corn, 2,489 bushels of oats and 21 bushels of mill feed, making a total of 6,776,929 bushels of cereals. In addition to this 219,996 gallons of molasses were utilized in distilling Kentucky spirits. The total of grain material used in Kentucky was exceeded only in Illinois, where over 9,000,000 bushels were consumed in distilleries.

In addition to whisky Kentucky produced a lot of apple brandy last year, the total being divided among the several internal revenue districts in the state as follows: Second, 12,376 gallons; Fifth, 86,746 gallons; Seventh, 732 gallons; Eighth, 811 gallons. California excelled in the production of fruit brandy.

## GERMAN SPY

IS DESERTER FROM COAST ARTILLERY AT NEWPORT.

Army Post Has Sensation in Disappearance of Private Gustavus Liesendahl.

Newport, R. I., Nov. 16.—The soldiers of the army posts about Newport have a sensation on hand in the disappearance of Private Gustavus Liesendahl, of the Seventy-ninth company of coast artillery, stationed at Fort Adams. Private Thomas Keogh, who was a comrade of Liesendahl at Fort Adams, says he is sure he was an officer in the German army at Pekin, and that they were both members of the international force that was sent against the boxers. Liesendahl is charged with being absent without leave, and if he is gone another twenty-four hours he will be declared a deserter. The soldiers thereabouts are stating that their belief that Liesendahl has plans of the fortifications in this vicinity and near New York.

Liesendahl is finely educated, and of handsome physique. He is a linguist and a draftsman of ability, and at Fort Adams he has been engaged in clerical duties, and recently he was put at work about the plotting board of the range finder. The soldiers call Liesendahl the man of mystery.

## Theatrical Notes

AT THE KENTUCKY.  
Friday Night, "A Crown of Thorns."  
Saturday, Matinee and Night, "A Girl of the Streets."

Crown of Thorns.  
A successful play must do something more than entertain. The pieces that live are the ones which teach some strong lesson. The American public has no sympathy with the playwright who throws together a lot of impossible rubbish, gives it a daring name, and inveigles some manager to produce it. Mr. Phil Hunt who will bring "A Crown of Thorns" to the Kentucky tonight, has never been in sympathy with

Scene from "A Crown of Thorns" at The Kentucky Tonight.

this class of people. All of his productions have been noteworthy for their inoffensive strength and purity of theme, and it is claimed that "A Crown of Thorns" is no exception to the rule. The play is the work of Jay Hunt, the author of "Hearts of Gold," which fact alone is a guarantee.

Miss Ruth Gray will be at The Kentucky all next week commencing Monday night, with her big vaudeville company. The first announcement, yesterday, gave the date as Friday, November 16, which, as was obvious, was an error.

Girl of the Streets.  
"Girl of the Streets" will be presented at The Kentucky tomorrow matinee and night. The presentation of this play is awaited with a great deal of interest. Those who witness the play will find in it scenes that are likely to be remembered for many days. One of these is Harlem river and the suspension bridge, showing New York city illuminated in the distance. Among the others is the counterfeiters' den, Sing Sing prison and the "black pool." The complete scenic production is carried. George B. Edwards & company have given the play a thoroughly adequate production and the company is described as being one of much strength and cleverness.

Ruth Grey, All Next Week.  
A newspaper describing Miss Gray's work, says: "It is so mysterious, so unsolvable, so uncanny, that it practically defies description, though the details of what the audience sees are simple. Miss Gray, a comely young woman, takes her station, blindfolded, on a raised platform on the stage, seated in a plain wooden chair. Any member in the audience who so desires may write a question on any known subject, signing his or her name to it. Miss Gray, seated upon the stage, without a word being said to her, calls out the person's name, designating whether he sits on the left or right side. She then tells him what the question is and then answers it. She is considerate in her replies to questions, careful not to say things which some might not wish stated in public."

FILES CURED IN 6 TO 14 DAYS.  
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded, 50c.

### Women Who Brave Death for Social Honors.

In the midst of one of the most brilliant social functions of the season, a noted society woman started suddenly from her chair with a scream of agony and fell insensible to the floor.

The result was that she escaped the surgeon's knife and to-day is a well woman.

The derangement of the delicate female organism sets every nerve in the body quivering with pain. Headaches, backaches, torturing bearing down pains and dragging sensations make women nervous and hysterical.

DEAR MRS. PINKHAM:—I was troubled for eight years with irregularities which broke down my system and brought on extreme nervousness and hysteria. I could neither enjoy my meals nor sleep nights, became easily irritated and nervous and very despondent. Lydia E. Pinkham's Vegetable Compound proved to be the only medicine which helped me. After taking the third bottle, my general health began to improve. At the end of the fifth month I was well and could attend to my household and social duties and enjoy life.

DEAR MRS. PINKHAM:—I tried many different remedies to try to build up my system, which had become run down from loss of proper rest and unseasonable hours, but nothing seemed to help me. Mother is a great advocate of Lydia Pinkham's Vegetable Compound for female troubles, having used it herself some years ago with great success. So I began to take it, and in less than a month I was able to be out of bed and out of doors, and in three months I was entirely well. Really I have never felt so strong and well as I have since.

## GRAND WELCOME TO THE PRESIDENT

Extended By Inhabitants of  
The Isthmus.

President Amador and Officials With  
Catal Commission Did Honors  
of Occasion.

### STRENUOUS DAY OF LANDING.

Panama, Nov. 16.—The train which brought President Roosevelt and his party from Colon arrived at Ancon at 10:30 this morning. There President Amador and party alighted and President Roosevelt and his party were conducted to Lobaco, at the Pacific entrance of the canal, where the steamer Bolivar was in waiting to take the president on a cruise about Panama Bay.

At 11 o'clock the Bolivar left her pier, passing around Flamenco, Naos and Pierce islands, afterwards returning to Lobaco. All the steamers, dredge and tug boats were decorated with flags and when President Roosevelt's steamer passed, they saluted, blowing their whistles while the crews of the seven American steamers cheered wildly.

At noon the trip around the bay ended, the president landing at Lobaco, where he lunched. The president seemed determined to obtain all the information he possibly could. He asked many questions of the canal employees. During his trip from Colon he met a number of work trains filled with earth and rock from Culebra Cut and saw several steam shovels working.

From Lobaco President Roosevelt came this afternoon to Panama City. From the rail station he was driven up Central avenue to Cathedral plaza. The streets were filled with people and all along the line of march was crowded to its capacity. The people constantly cheered the president as he passed.

All prominent officers of the Panama government and the canal commission and delegations of citizens gathered before the platform in front of the cathedral and President Amador delivered the address of welcome. President Roosevelt's reply was interrupted time and again by the admiring crowd, who cheered almost every word. At the conclusion of address the school children of the city marched to the platform and assembled in the park opposite, where they sang the national anthem.

From the Cathedral plaza, President Roosevelt returned to the Tivoli hotel escorted by government officials and prominent officials and prominent citizens and preceded by two hundred or more members of the aristocracy of Panama on horseback. The welcome given the president upon landing in Panama proved conclusively that the people of this republic are his firm and sincere admirers. He has conquered them and he holds a high place in their esteem.

#### His New Study.

Mr. Jecklyn had just received from his youngest son, who was in his first year at college, a telegram to this effect: "Dear Father: I am about to take up a new study. Please send me \$25 to pay for the outfit."

He answered it at once in this wise: "Dear John: What is the study?"

To the query came this rejoinder: "Dear Father: It is golf."—Youth's Companion.

## PADUCAN POLICE

AIDED IN CAPTURING DESTROYER OF HOME.

G. M. Johnson, Who Eloped With  
Mrs. B. L. Pope, Arrested in  
East St. Louis.

The astuteness of Paducah patrolmen was brought into prominence again today by the arrest of G. M. Johnson, who ran away with the wife and two children of B. L. Pope, of near Jackson, Tenn., last August. The alleged fugitives with Pope's wife and children, lived in Paducah several days, but before the facts in the case were made known to Paducah policemen Johnson disappeared, just after a drug store over which he resided was broken into.

G. M. Johnson made himself agreeable about the farm on which B. L. Pope worked near Jackson, Tenn. Pope drove the milk wagon to town. While Pope was distributing milk Johnson is alleged to have run away with the wife, who took with her one son and a daughter. She thoughtfully left two smaller children behind for the father to care for and remember her by.

Johnson resided over a drug store at Eleventh and Jackson streets in Paducah. From Paducah the police learned the quartette went to Mounds Ill., then Charleston, Mo., and then to East St. Louis, Ill. The arrest was made at East St. Louis.

Policeman Harris, of Jackson, wrote Chief of Police James Collins this morning thanking the Paducah force.

#### GREASER'S EPITAPH.

Gen. Kearney's Tribute to a Half-breed Servant.

Here lie the bones of Sancho Pedro: the only damn decent Greaser I ever knew.

Killed by Apache Indians, 1846.

Gen. S. W. K., U. S. A.

The letters had been burned into the pipe slab with the corner of a branding iron. The dry climate had kept the wood preserved, and there was no indication that it had stood for more than a few years, except for the date below the epitaph.

A few bullets, tributes of cowboys who doubted that a greaser could be good, even when dead, had splintered the sides of the slab.

It was an unusual epitaph. The fine slab stood in a sandhill far off from the Pecos river, up near the foothills in New Mexico. The epitaph was unusual because it spoke well of a Mexican half-breed. You might travel for days in New Mexico and Arizona and find neither on wood nor stone nor the lips of a white man such flattery as that "a greaser was decent."

Sancho Pedro must have been an unusual half-breed to acquire the friendship of a general. The slab was found half buried in a sand dune by a Mexican grading crew on the Santa Fe railroad when they ran their line down the Pecos valley in the early nineties. Sancho's countrymen were disturbed by no niceties of sentiment when they ran on to the grave. They split the headpiece into paddles with which to clean their shotguns and found the bones of a man and high-heeled Spanish boots. An iron crucifix and chain, incrustated with rust, were taken from around the neck by an Indian boy who was carrying water for the men.

When he went back to Santa Fe he showed the crucifix to his grandfather, an old Navajo Indian, who had been with Gen. Stephen W. Kearney. The old man, in broken English and between many lapses of silence and puffs from a pipe, told of Sancho Pedro. He was a hostler for Gen. Kearney, the old man said. He served the general for years, and was killed in a skirmish with Apache Indians down in the Pecos valley near the foothills in 1846. The general ordered that he should have a decent burial, and burned the epitaph with his own hands on a pine slab with an old Spanish branding iron.

The railroad desecrated Sancho's grave and threw his bones to whiten and waste away on the sands. His story would never have been known except for the crucifix the Indian boy took from his neck and kept. He liked to show it and repeat the story his grandfather had told him of Sancho Pedro and the epitaph written by Gen. Kearney.—Kansas City Star.

## CURRENCY REFORM IS AGREED UPON

Bankers' Association Adopts  
Resolutions

Provide for Elastic Currency to Automatically Adjust Itself to Conditions.

### FOR SPECIAL CREDIT NOTES.

Washington, Nov. 16.—The plan of currency reform agreed upon by the joint committee of the American Bankers' association and the New York Chamber of Commerce, upon which they had been at work for four days was made public today.

The plan agreed upon contemplates the issue under government supervision of credit bank notes by national banks equal to 40 per cent of their bond secured circulation, subject to a tax of 2 1/2 per cent. per annum; an automatic increase of credit notes equal to 1 1/2 per cent. of a bank's capital, at a tax of 5 per cent. per annum; the establishment of a guarantee fund for the redemption of credit notes; repealing the existing law limiting the retirement of bond secured notes to \$3,000,000 per month, and the deposit of all public moneys above reasonable working balances in national banks without collateral security, on which the banks are to pay 2 per cent.

Banks are under the necessity of parting with their reserve money to supply the demands for currency at certain seasons, although that demand would be quite as well satisfied if banks could supply their credit notes instead of depleting their reserve and causing a contraction injurious to business.

To meet this situation the national banking act, the report says, should be so altered as to permit, under ample safeguards, the issue of credit bank notes which would automatically adjust the volume to the demands for currency.

The report sets out a series of principles which are believed to underlie "a correct solution" of the currency problem, so far as it relates to the issue of a bank note currency.

#### INCREASE IN TOTAL WEALTH

That of America Estimated by Census Bureau at \$106,881,415,009.

Washington, Nov. 16.—The United States census bureau today estimated the total wealth of the country in 1904 to be \$106,881,415,009.

This shows an increase in wealth over the estimates for 1900 of nearly 21 per cent and of 64 per cent over the estimate for 1890, when the total wealth was \$65,937,981,197.

#### CHILDREN'S DEPARTMENT

## BOYS' CLOTHING

Stylish and Well Made

THE key note in our Children's Department is "appropriateness." Our boys' suits are made from boys' patterns, in fabrics adapted to boys.

We have the greatest variety of styles and materials shown in any store devoted to Boys' Clothing in the city.

The above illustration represents a double-breasted Knickerbocker Belt Suit and the very popular Boys' Reefer.

The Double-Breasted Knickerbocker Belt Suits for boys of 9 to 16 are shown in club checks, invisible plaids and blue serges, ranging in price from \$4 to \$8.

The Boys' Reefers, ages 4 to 14, come in gray, tan, navy and Oxford; warm and comfortable, without being cumbersome, they will please the boys as well as the parents. They are priced from \$4.00 to \$10.00.

At \$1.50 we are showing an especially strong value in Boys' Tan Corduroy Knickerbockers—just the thing for foot ball and other outdoor sports.

## Special for the Ladies

We have in this department a line of Dent's Walking Gloves, made of heavy materials, coarse stitched and cut over the same patterns as the men's gloves.

### THE EXODUS.

Paducah's leper colony is on the move. No moral question has been solved by the breaking up of the infamous dives on Kentucky avenue. No credit is due those who inaugurated the agitation for accomplishing a reform, nor do they claim any. The exodus simply is the consummation of a practical purpose to get the women out of one neighborhood, where they are obnoxious because of their publicity. They are not redeemed from sin individually, nor do they intend to leave the city. They will just take their belongings and proceed to infest some other neighborhood, and we doubt not Paducah will see some stirring times before the soiled doves again find an abiding place where they do not disturb the neighbors. Their disposition will continue to bother the executive head of the city long after the residents of Broadway and Kentucky avenue have forgotten the incident.

It is a worrisome question of public policy. Scattered as they now are, the dives may hurt many sections morally, socially, and financially, while the expense and difficulty of proving an establishment a nuisance are greater than most people believe. Even such creatures have their personal rights recognized in a court of justice. To segregate them and build up a new red light district amounts, in a measure, to recognizing their existence without attempting to destroy them. If the police had their way we know what they would do. The police would colonize them again somewhere, so they could be watched and the thieves and thugs who consort with them.

We are glad the red light has been hidden under a bushel, and we congratulate the people of Broadway and Kentucky avenue, but we sympathize with Mayor Yeiser and the rest of the city.

The alleged facts brought out in the exposure of Mayor Schmitz, of San Francisco, are peculiarly distressing for many reasons. Mayor Schmitz represented the political dominance of organized labor in San Francisco, and yet was not foisted on the public to use his political prestige to promote the interests of the unions as against the rights of the general public. He was believed to be a man of the people, who would redeem the City of the Golden Gate, as folk did St. Louis. Then came the terrible disaster that laid San Francisco low, and Mayor Schmitz seemed to rise to the occasion like the man of the hour. Now we hear of his indictment, not merely for conspiracy to override the people's rights, but for the low crime of the political thug, extortion. More dastardly than that even, his name is associated with the disappearance of money donated by a generous-hearted people, money that cost some fami-

lies their meat for a week, that the homeless sufferers of the stricken city might not starve. If Mayor Schmitz is in the least degree tainted with the crime, or if through the least negligence on his part the theft of this money was made possible, he is the arch-scoundrel of the century.

It was wise in the Paducah Commercial club to inaugurate a local immigration movement separate from the Southern Quarantine and Immigration convention. The latter organization is dominated by the mill men of the Carolinas, and the purpose of their organization is entirely different from the one designed to meet local needs. The conference at Nashville discussed labor problems and the race question, and decided to import mill hands from Europe. Western Kentucky wants more farmers, more diversified crops, more people. Charlotte, N. C., is in trouble with the federal government because an agent went to England and by false representations brought workmen to the cotton mills. Such conduct will cost the movement ten years of progress. If we bring a dozen thrifty families from Europe and treat them well and they prosper, they will send back such reports to the Fatherland as will set in motion toward western Kentucky a constant stream of immigration. Treat them otherwise and all the persuasion of our agents will avail us nothing.

Citizens who were concerned about the Illinois Central railroad placing the dispatchers' office in the middle of Kentucky avenue at the railroad crossing, should disabuse their minds of an idea they will not see realized for many years—the opening of Kentucky avenue across the railroad. Paducah seems to have as many dangerous grade crossings as either the city or the railroad cares to contemplate. When the city does condemn a right of way through there, the dispatchers' office will be moved again.

When we read about Lexington and Mayfield and other Kentucky cities experiencing a coal famine, we appreciate the good, old Ohio river.

The American Bible society found the Baptists a bit "dippy" on the translation of the word baptism.

## TERRIBLE STORM ALONG THE COAST

Cuts off Seattle And Tacoma From The World

Only Meager Details Reach Spokane, But Damage Is Almost Beyond Computation.

VALLEYS RAGING TORRENTS

Portland, Ore., Nov. 16.—As the result of unprecedented floods, Seattle and Tacoma are cut off from railroad and telegraph communication with the outside world. An avalanche of mud prevents the Great Northern running trains. More than a dozen towns in the White, Stuck and Green river valleys are flooded. Steel bridges on the Northern Pacific are carried out over the Green and Stuck rivers.

The town of Kent is in the center of the White river, now two miles wide. Immense danger has been done to crops and farmers are driven from their homes.

Loss to farmers is put at \$250,000; Northern Pacific, \$250,000; King county, \$100,000; electric roads, \$75,000.

The Clear Water river at Lewiston is carrying down great quantities of timber and shingles and the false work on the Oregon railroad and Navigation company's bridge, under construction, is carried away.

The resident district of Auburn is entirely flooded and in many parts of the city the water has risen so high that the people have fled to the hills. Several empty two-story farm houses have floated down both the Green and White rivers.

Huge bonfires light up the hills in the farming country and about them are huddled poor families driven from their homes, while others are fighting desperately to save some of their possessions.

Danger of loss of life will be greater tonight when, in the darkness, it will be practically impossible for rescuers to find the people huddled along the river bank.

EAGLES NOMINATE.

Will Elect Officers at Meeting on November 28.

At the regular weekly meeting of the Eagles Wednesday evening, officers for the next year were placed in nomination. Those nominated were: Worthy president, T. B. Harrison; worthy vice presidents, L. V. Ragan and J. Konezka; chaplains, L. Corson and H. Allen; worthy conductors, David Glass, Sam Simon and W. L. Reames; worthy treasurer, S. B. Gott and T. R. Chapin; trustee, Lewis Levy; secretary, D. P. Marton. Officers will not be elected until two weeks after the nominating night. Next Wednesday nominations will be in order again and the following Wednesday the election will take place. After the business meeting the members enjoyed a smoker.

No Football Game.  
On account of wet, heavy, grounds the game between Hopkinsville and Paducah High school teams will not be played tomorrow. This announcement was made this morning when a telegram was received from Hopkinsville making the conditions known. The local team has been practicing hard to get into shape and the boys were anxious to meet the Hopkinsville team.

Twelve Bodies Recovered.

Relief for Rheumatism.  
These damp days are hard on people afflicted with rheumatism, and relief is sought in all sorts of remedies.

There is no doubt in the minds of people who have suffered with the dread disease and those who have studied it closely that probably more relief can be secured from the Osteopathic treatment than any other.

Of course, some chronic cases won't yield to any treatment, but instances of cases of seven and eight years' standing yielding to three months' treatments can be cited. If you are suffering from rheumatism, I should like to discuss your case with you, examine you and tell you what I can do for you. With the dry hot air treatment that I use with osteopathy I am having very gratifying success with people you know well.

## MAYOR SCHMITZ

(Continued from page one.)

postal orders and by inclosing scrip in envelopes and other packages. These were forwarded in care of Mayor Schmitz. It is said that amounts ranged from 50 cents upward into hundreds of dollars were sent through this agency.

That only a comparatively small sum reached the Red Cross society or the citizens relief committee, is shown by the records of those bodies. It is estimated that relief monies were forwarded through 10,000 postoffices of the United States, and also considerable sums through express companies.

One Hundred Detectives at Work.

Over 100 of the most expert operatives of the secret service department have been at work among the postoffices of the union and in this city tracing the money orders and receipts. The crime of forgery is said to be included in the offenses of the raiders of the relief contributors.

It was through President Roosevelt's influence that William Burns, one of the most expert and successful detectives in the employ of the government, was detailed to work in San Francisco. Francis J. Heney, who with Detective Burns, was engaged in the important land fraud cases in Oregon and California, was detached from that work and assigned to the San Francisco graft investigation.

Funds Not Molested.

Washington, Nov. 16.—All connected with the administration of the National Red Cross association here deny most emphatically that there has been any misappropriations or grafting of the relief funds of that organization in San Francisco. It is stated that every dollar received and disbursed can be accounted for.

Schooner in Distress.

Sandy Hook Nov. 16.—The schooner Lydia R. Roper with sails tattered by the storm anchored off Little Egg harbor. Life savers have gone to her in boats. She is leaking badly. The captain signaled for a tug. The crew will be taken off by life savers if she sinks.

Will Investigate B. & O.

Chicago Nov. 16.—On account of the large number of deaths and the magnitude of the calamity, the Indiana state railroad commission has decided to go to Woodville near Valparaiso to investigate the wreck of the immigrant train on the Baltimore and Ohio last Monday.

Negro Killed by Mob.

Asheville, N. C., Nov. 16.—Will Harris a negro who killed two Asheville policemen and three negroes Tuesday, was shot by a posse today near Fletcher. The negro has been pursued by hundreds of armed men from Asheville and the surrounding country. This morning the negro was discovered in a barn near Fletcher and aid was requested.

Relkopf Schedule.

Louisville, Nov. 16.—The E. Relkopf Saddlery company of Paducah today filed in the federal court a schedule, showing its assets and liabilities in the bankruptcy proceedings. The schedule shows a secured indebtedness of about \$55,000 and an unsecured indebtedness of about \$50,000 with assets against the unsecured indebtedness of about a like sum.

No More Passes.

Chicago, Nov. 16.—Sentiments expressed at the meeting of the western pass committee yesterday indicate that the railway pass will vanish entirely from the west on January 1. The new rate law prohibits its issuance for interstate travel after that date to anybody but railway officials and employees of common carriers, and the western railroads manifest a strong disposition to discontinue issuing it for state business. The committee will meet again on November 22, when the question will be settled.

191 SUICIDES.

In Greater New York, According to Health Report.

New York, Nov. 16.—One hundred and ninety-one persons committed suicide in New York city during the three months previous to July 1, last, says the report of Health Commissioner Darlington, sent to Mayor McClellan yesterday. Sixty-seven persons were killed by electric cars during the quarter, 41 of the total number being in Brooklyn. The total number of deaths by accident and negligence during the three months was 965. Two persons over 100 years old died, Rebecca Mochaler, 101, and Rose Lasmina, 103.

A little secular success is worth a lot of sacred sympathy.

## DAVIS MEMORIAL

SERVICE IS HELD

Daughters of The Confederacy

In Session

Beautiful Flag Presented and Historic Gavel Wielded at the Opening.

SEVERAL HUNDRED PRESENT.

Gulfport, Miss., Nov. 16.—The thirteenth annual convention of the United Daughters of the Confederacy convened here with an estimated attendance of 700.

A pretty incident and one fraught with much pathos, was the presentation by the Texas delegation of a Confederate battleflag in memory of Mrs. Jefferson Davis. It is a beautiful little flag, full size, made of heavy silk. The stars are embroidered with silver. At Judge Hardy's suggestion it was greeted with the rebel yell by the veterans present. The members of Beauvoir Memorial Home were present and participated in a review under the flag. It was a touching scene and there was scarcely a dry eye in the assemblage.

A gavel made of a cedar knot grown at Beauvoir was presented Mrs. Henderson, the president.

After luncheon the reports of committees and the president's address were listened to. Gen. Walker, of Virginia, addressed the convention to enlist the aid of the U. S. D. C. in the erection of a monument to the women of the Confederacy. This was vigorously opposed by Mrs. Randolph, of Virginia.

The second session opened with a memorial service.

Resolutions were presented by the U. S. D. C. in memory of Mrs. Jefferson Davis, which were adopted and become a part of the records.

### People and Pleasant Events

**Delightful Evening.**  
Mrs. Mildred Davis entertained her Sunday school class of young men last evening at her home on Kentucky avenue. It was a delightful occasion. Each of the class invited a young lady.

The feature of the evening was a debate on the question: "Resolved, That Character is Formed by Heredity and Not Environment." The affirmative side was taken by Prof. W. H. Sugg and Mr. W. W. Chapman, and the negative by Messrs. Roscoe Reed and Will Scott. It was a spirited debate and many clever points were made by those handling the question, all of whom are college men and past masters in the art of debating. The affirmative side won and the prize, a book, "Young Men—Their Faults and Ideals," was awarded to Prof. W. H. Sugg. The judges were: Dr. I. B. Howell, Dr. Vernon Blythe and Mr. Wallace Well.

Delightful music by Miss Mary Scott and a luncheon attractively served, followed the debate. Quotations on "Character" were given by the guests present.

**Fortieth Wedding Anniversary.**  
Mr. and Mrs. V. O. Sweatman, of 323 Madison street, yesterday celebrated the 40th anniversary of their wedding very quietly at their home. A few intimate friends celebrated the occasion with them at a delightful dinner.

Dr. Sweatman is one of the pioneer druggists of Paducah and as a man and citizen stands high. Both he and Mrs. Sweatman have a wide circle of friends in the city.

**Groom Popular Here.**  
Cards announcing the marriage of Mr. Willis Burnely Postlethwaite to Miss Mary Lu Greer at Paris, Tenn., on Wednesday, November 14, have been received here.

Mr. Postlethwaite is the youngest son of the late John T. Postlethwaite, former city engineer of Paducah, and has lived in Paris only a few years. He has relatives and many friends in this city. His bride is a popular Paris girl.

**Class Entertainment.**  
Mrs. Frank L. Scott will entertain her Sunday school class of the First Christian church this evening at her home on North Ninth street. It will be an informal reception.

**Entre Nous Club.**  
Miss Mary Scott is hostess to the Entre Nous club this afternoon at her home on Madison street.

**Complimentary to Visitor.**  
Mrs. Richard G. Terrell is entertaining this afternoon complimentary to Mrs. Leslie B. Samuels, of Bardonia.

Miss Pauline Purcell left for her home in Lexington this morning, after visiting Miss Frances Wallace and attending the Corbett-Thompson wedding.

Mrs. J. M. Walton returned from Water Valley this morning. Trainmaster T. L. Dubbs, of the Fulton district of the Illinois Central, is in the city today on business.

Mr. Wade Sowell is in the city attending the bedside of his mother who is seriously ill.

Miss Georgia Bonnin, of Louisville, is visiting her aunt, Mrs. O. Kasmir H. L. Sanderson, of Mayfield, in the city yesterday.

T. H. Bell, of the Hardy Buggy company, has returned from Cincinnati and the East.

Miss Pentecost, of Memphis, is visiting Mrs. T. Miller Sisson, of Clark street.

M. Hoagland, of the Hardy Buggy works, has returned from a business trip to Louisville.

Traveling Engineer Lloyd Grimes, of the Tennessee division of the Illinois Central, is in the city today on business.

Mr. Amos G. Owsley, the retired capitalist, went up the Cumberland river today on a hunting trip.

Mr. Joseph Fisher, of Russell, Ky., is visiting his sister Mrs. A. Thompson, of West Trimble street.

Miss Mittle Hart, of South Fourth street, has gone to Nashville, Tenn., to reside. Her sister, Miss Ila Hart, will follow soon.

Mrs. George Finnigan, of North Ninth street, has gone to Iowa to live.

Mrs. Addie Thompson, of Metropolis, Ill., is visiting Mrs. L. B. Ragan, of West Trimble street.

## WOMAN'S CLUB

ORGANIZED IN PADUCAH YESTERDAY AFTERNOON.

Mrs. James A. Rudy Was Elected President and Committees Were Appointed.

A Woman's club was organized yesterday afternoon in Paducah. The meeting was held in the dining room of the Palmer House and the attendance was a representative one. Decided enthusiasm, but of the serious and abiding kind, was evinced by those present.

Mrs. John G. Miller was made temporary chairman and Mrs. Robert Becker Phillips temporary secretary. After the object of the Woman's club and the need of one in Paducah was succinctly stated by the chairman, the organization was entered into.

Mrs. James A. Rudy was elected permanent president.

Mrs. Rudy appointed Mrs. Robert B. Phillips, Mrs. Frank Farham and Mrs. Elbridge Palmer a committee to nominate the other officers of the club, namely: First and second vice presidents, corresponding secretary, recording secretary, treasurer, historian and chairmen of the various departments, which will probably embrace: Civic, finance, literary, music, art, charity, and a house committee.

The committee on Constitution and By-Laws is: Mrs. J. G. Miller, Mrs. Muscoe Burnett, and Mrs. Edmund M. Post. Both these committees will report at the next meeting which will be held Friday, November 23.

Thirty-two names were enrolled for membership yesterday afternoon. Mrs. Henry Burnett, of Louisville, was present. She gave a delightful talk on the Louisville Woman's club.

### LEGACY FOR NURSE AND TOTS

Omaha Man Remembers Woman and Waifs Who Brightened Illness.

Omaha, Nov. 16.—In the will of James G. Megeath, filed for probate today, is provision for a legacy of \$1,000 to Mrs. Kate Lucas, a nurse who attended him in a Baltimore hospital and another of \$200 for two young waifs who visited him during his illness. The children were in the care of Mrs. Lucas at the time he was at the hospital in 1894. He only knew them as Edith and Travis. The gifts are left in recognition of the kind treatment he received during his illness. The estate is estimated at \$148,000, of which \$100,000 is personal property.

**Thaw Is a Wreck.**  
New York, Nov. 16.—"In my opinion Harry Thaw is a nervous wreck. Judging from my single interview with him which took place yesterday afternoon, the young man is laboring under great excitement, and is evidently of a highly nervous temperament."

The foregoing statement was made today by Delphin Michael Delmas, a California lawyer, who has come to defend the slayer of Stanford White.

### Double Funeral.

The funeral of Captain J. W. Bush and Attorney James C. Hodge, who died in Smithland Wednesday of heart trouble, were held at 3 o'clock at Smithland yesterday afternoon. The funeral was largely attended, many Paducahans being among those present.

## "Seeing the Southwest" EXCURSIONS

Doubtless you have heard of the Bumper Crops which have been raised this year in Arkansas, Louisiana, Oklahoma, Indian Territory, Texas and New Mexico. Have you compared them with results obtained in your section? Is your work where you are, bringing you adequate returns for the capital invested and the labor expended? If not, a change would be beneficial perhaps. A visit to the Southwest will open your eyes. Out in Oklahoma the last big land opening is soon to take place; farms are still very cheap in Western Arkansas, Northern Louisiana and the Gulf Coast of Texas. Let us give you full information about these sections. You will want to see them after you have examined our illustrated literature.

## MAY REORGANIZE ILLINOIS CENTRAL

**President Harahan Is Said To Contemplate Change.**

Complete Shifting of High Officials Scheduled for Near Future, Says the Rumor.

### ON HIS WAY TO THE SOUTH

Chicago, Nov. 16.—Rumors of an almost total reorganization of the Illinois Central railroad following the recent appointment and changes made by President Harahan are current here. The changes, so far made, are few, but important.

While it has not been officially announced it is well understood that the changes which have so far taken place are but the forerunners of a plan for general reorganization, involving a shifting of some of the higher executive officials, and the introduction of new men into the various minor executive and other official positions. What the specific changes contemplated are, it was impossible to learn, but an official stated that the changes so far were probably part of a general reorganization. Plans involving other changes in the operation of the road will come up at the meeting of the directors November 21.

President Harahan left town yesterday for the south, where extensive construction work is going on.

Louisville	3.7	0.1 fall
Mt. Carmel	1.0	St'd
Nashville	8.0	St'd
Pittsburg	4.5	1.8 fall
Davis Island Dam	—	missing.
St. Louis	8.4	St'd
Mt. Vernon	5.5	0.1 fall
Paducah	5.4	0.2 fall

### Official Forecasts.

The Ohio at Evansville and Mt. Vernon, not much change during the next 24 hours, with a falling tendency. At Paducah and Cairo, very little change during the next 24 hours.

As yet the river does not show any rise from the rains and snow. And the rise in the upper rivers has not reached here. The gauge registered a fall of .2 in the last 24 hours, the stage being 5.4 this morning. Business at the wharf today was fair.

The Tennessee from Florence to below Johnsonville will probably rise slightly during the next 24 hours.

The Mississippi from below St. Louis to Cairo, no material change during the next 24 hours.

A telegram from Memphis to Captain Phillips, agent for the Lee line, announces that the Georgia Lee will not leave Memphis this trip, but that it is expected water will be sufficient in ten days to resume the Cincinnati-Memphis trade.

The Fred Hartweg will be towed to Cairo tomorrow by the John Moran which will come up from that city after the Hartweg. The boiler work has been completed and Capt. G. M. Mallory compliments the Paducah firm on the quality of its work. The Fowler-Wolfe company had the contract. The smoke stacks and other repairs will be finished at Cairo.

The Wash Honshel was pulled out on the ways at Mound City yesterday for repairs. Several days ago the Honshel "ran through herself," to use the technical expression, and the shaft was broken. When the shaft of the wheel breaks, the machinery doubles up on itself in a manner like the reaction of a stretched rubber.

Captains Patton and Little, two lower Mississippi river men have purchased the Kit Carson; and after that boat is repaired, will carry her down to the lower Mississippi river trade. The Kit Carson will be raised on the dry docks Saturday morning for repairs.

Capt. Mike Williams, manager of the marine ways, received a letter yesterday from the Ryman Line headquarters in Nashville, stating that if the river would permit, the Electra would come here for repairs on the ways next week. At present barge work is being done, the hammers starting again this morning after two days' enforced rest on account of the snow.

As announced several days ago in The Sun, the Saltito will carry an excursion out of St. Louis to Pittsburgh Landing, Tenn., for dedicatory exercises at Shiloh park. The City of Memphis also will carry an excursion to the exercises arriving here for the first time in two years. The two boats will leave St. Louis Saturday.

The Joe Fowler arrived this morning at 5 o'clock and left at 7:30 to and from Evansville. Business was light and there was a good crew. The John Hopkins will be late arriving today from Evansville.

The Kentucky was late arriving today from the Tennessee river.

The Dick Fowler had a light trip to Cairo and way points this morning.

## COMING MESSAGE TO THE CONGRESS

**Is Statesmanlike Document in Every Way.**

Roosevelt Sees Dawning Era of Water Transportation and Favors River Improvements.

### PROVISIONS OF HIS ADDRESS

Washington, Nov. 16.—As a means of preparing the nation for what might otherwise be regarded as a "radical" message, President Roosevelt has permitted a peep at his forthcoming address to congress. There is little comfort in its recommendations for the dishonest corporation. There is equal dismay for the idle rich and for those whose fortunes have grown "top-heavy." On the whole, it is a statesmanlike document.

The president's chief recommendations may be summed up briefly as follows:

A system of progressive taxation upon large inheritances.

Government supervision, by license or otherwise, of all corporations (besides railroads) engaged in interstate business.

Federal legislation to correct and reduce evils of divorce.

Publicity of campaign expenditures and inhibition against corporation contributions.

Greater protection of railroad passengers and employees by adoption of black systems, and 8-hour day for employees.

Exclusion of undesirable European immigration.

A more elastic currency system to prevent stringency.

**Favors Deep Waterways.** There is one question that Mr. Roosevelt dwelt on with characteristic earnestness, and that is the upbuilding of a greater American merchant marine. In connection with this question he is believed to have had in mind his corollary, the development of rivers and harbors. For if the United States is to extend its commercial sway abroad, it must have means for reaching the interior of the country with its ships, where they may load and clear for foreign ports. There must also be deep sea harbors of sufficient channel depths to accommodate the steamers that fostering legislation would bring in to be.

President Roosevelt is heralding the advent of the era of water transportation. That he is interested in it coming is proved by his present trip to Panama. He has declared his hearty interest in the growing pressure being brought to bear on congress for appropriations for rivers and harbors development work, and the movement has been given his unqualified endorsement.

**Elephants on Our Hands.** Washington, Nov. 16.—Uncle Sam has three elephants on his hands without knowing what to do with them. They were confiscated in New York today under the recent eccentric workings of the tariff, but their status, now that they belong to the government and have to be fed at federal expense, is a puzzle that is worrying Assistant Secretary Reynolds of the treasury department.

The elephants belonged to one Thompson, whose first name is not even known to the treasury department. When originally brought into the country the elephants were valued at \$6,000. They were put through various exhibition stunts until recently, when they were again taken across the border line into Canada. When brought back they were assessed additional duty, and were appraised at \$2,300. It appears that the treasury agent who passed them at Buffalo was not an elephant expert and allowed them to enter, but the treasury instituted an investigation, which is said to have developed the fact that Thompson offered to sell the elephants for \$10,000. There is a law to the effect that anything admitted through the customs and appraised at less than 50 per cent of its value may be confiscated. Under this law Uncle Sam took charge of the elephants. It is not known what to do with them.

## SENIORS ELECT

## NEW PRESIDENT

The High School Class Will  
Select a Pin.

Freshmen Holding Literary Exercises  
This Afternoon, at Wash-  
ington School.

## ORCHESTRA IS AUGMENTED

The senior class of the High school held a meeting yesterday afternoon and elected the president for the ensuing year. Miss Hatfield has been the president for the past three years and would no doubt have been re-elected, but declined. Miss Henri Alcott was elected. The class will order class pins soon.

## Freshmen Literary.

The freshmen class at the High school at their literary meeting this afternoon will render the following program:

Reading — Katherine Garrison —  
The Over Doing of Tower II.  
Recitation—Isabella Griffith—"Hi  
awatha."

Piano solo—Mary Miller.  
Reading—Virginia Gilbert—Dul-  
cie's Christmas.

Vocal solo—Ora Pryor—"Where  
the Snow-Birds Cross the Valley."  
Reading — Dottie Dofton—"A  
Warning."

Piano duet—Vera Smith and Win-  
nie Thixton—"Autumn Days."  
Reading—Chesley Gregory—"A  
Little White Dove."

## Orchestra Performs.

For the first time this year the High school had the pleasure of hearing the High school orchestra. This year the orchestra has been strengthened, and under the direction of Miss Adah Brazelton has done creditable work in practice. Last year the pupils were delighted at the opportunities to hear the orchestra and they look forward eagerly to these concerts.

## ONLY CATTLE QUEEN IN WEST

Colorado Woman Conducts Big  
Ranch—Thorough in Business.

Denver, Nov. 16.—"Mrs. K. T. Gardner, Slater, Colo." There is nothing unusual in this signature, which appears on the register at the St. James hotel, but the owner thereof has the unique distinction of being the only cattle queen in the West and one of the wealthiest owners in Colorado.

Although owner of one of the largest cattle ranches in Routt county and reputed to have a bank account running over five figures, Mrs. Gardner rode into Denver the other day in the cab of an engine on the Moffat with eight carloads of as fine stock as is raised in Colorado trailing along behind her.

There is not in the history of the old cattle kings of early days a more captivating story of western independence than Mrs. Gardner's. In the early days she went into Routt county and started in the cattle business, and has steadily profited to the present time, all the time managing her ranch, taking her cattle to market, selling them herself—in a word running her affairs personally.

She is now wealthy enough to employ a manager, should she desire to do so, but out on her lonely Colorado ranch she has imbibed the same spirit of woman's independence and right to rank with men in business as in all other ways that has animated free suffragists and advocates of the "new woman" in great eastern cities.

Mrs. Gardner's trip on the engine is one example of her attention to business. She desired to personally supervise the shipment of her cattle in order to see that they reached Denver in good condition, and the installment of a through train on the Moffat road from the western edge of Grand county has made this possible for the first time since she began shipping cattle. With her were four men to attend to the wants of the cattle, but at every stop Mrs. Gardner made a tour of the train to see that nothing had happened to the animals.

"Why, I do not see anything out of the way in riding on the engine," said Mrs. Gardner. "A woman can do any kind of work that a man can. It was a little dirty and greasy, but you get a great deal more dusty if you are riding a broncho on the range all day."

Mrs. Gardner, as this remark would indicate, is a thorough horse-woman and rides the half-wild cow ponies with as much ease as her old cow punchers.

You will never tire of Mrs. Austia's Pancakes. A fresh supply now on hand at your grocers.

## OVERCOAT LOGIC

WHERE formerly there was but one man in every ten who invested in a ready-to-wear overcoat there are now nine men in every ten, and the ratio will hold good in every city and hamlet of this country. The reason is simply that they can buy a better overcoat for less money from the retail clothier than is possible in the shop of the custom tailor. We number among our patrons the richest men in Paducah—men who can quite well afford to have their clothes made to measure and pay exorbitant prices for them, but they get so much better satisfaction here, that it is simply logic that they should come to us for their clothes. Our overcoat display for this fall and winter is surpassing in extent, variety and quality and we affirm in all sincerity that no better overcoats exist at the prices we charge. Examine our showings.

## Have You Seen Our Overcoat Department?

If not, your time will be wisely spent by paying it a visit. We have recently installed on the second floor, front, east side of our building, what we consider one of the handsomest Overcoat sections in the state. It is equipped with the latest Twentieth Century Cabinets and hundreds of coats hang from individual forms on patent telescoping slides. Many have visited the department and were very much impressed with the beauty of the display. We can't describe it in words. Come in and see for yourself.

## Judgment for Forfeiture.

After more than a year the case of the commonwealth against Perry Bryant, charged with housebreaking, was docketed and an order entered. Bryant with companions, it is alleged, broke into the Wallerstein store several years ago. He gave bond in the sum of \$200, C. W. Emary, Sam and James Bryant becoming surety. He mortgaged to Attorney W. F. Bradshaw, who negotiated the bond, his interest in a lot to secure the bond, the commonwealth not being able to take the mortgage. The bond was forfeited by non-appearance and Bradshaw transferred the mortgage to the commonwealth. This morning the suit was entered in the name of the commonwealth and a judgment for the sale of the interest entered. This is how the commonwealth will make the money for the bond.

## SUES COLLEGE FOR ADMISSION.

Girl Claims She Is Entitled to Tuition Under Provisions of Will.

Richmond, Ind., Nov. 16.—Miss Laverna Beard today filed suit against Earlham college demanding the right to enter the college under the provisions of the will of Zachariah J. Stanley, which set aside certain property, the income from which was to be used to educate members of the Stanley family. Miss Beard avers that the testator did not mean to discriminate in favor of those bearing the name of Stanley, except where the degree of relationship was the same. Miss Beard alleges that three of the students who are taking advantage of the provisions of the will are of more remote relationship to the testator than she, and therefore, she claims to be unjustly discriminated against by the college authorities. Miss Beard avers that the college authorities have made a wrong interpretation of the will.
